

Solventborne

Product name
ACRYDIC AU-7200

Description

ACRYDIC AU-7200 is a solventborne OH functional acrylic resin to use in combination with polyisocyanates for 2K polyurethane coatings. ACRYDIC AU-7200 has excellent adhesion to plastics substrates, appearance and metallic pigment orientation. It is recommended for consumer electronics coatings.

Applications

Consumer electronics.
Plastic parts for industrial applications.

Key features

Appearance and leveling.
Pigment dispersibility.
BTX-free.

Characteristics

	ACRYDIC AU-7200
Appearance	Light yellow turbid liquid
Solids content, weight %	59.0 - 61.0
Viscosity, Gardner 25°C	Z1 - Z5
Acid value on solution, mgKOH/g	7.5 - 11.0
OH value on solution, mgKOH/g	Approx. 30
Solvent	Butyl cellosolve

Storage

Store in a cool, dry, and well-ventilated place at temperatures below 25°C.

Safe handling note

Refer to SDS for ACRYDIC AU-7200.
Please confirm with our sales representative regarding chemical regulatory status of intended countries.
