

Solventborne

Product name
ALUKIDIR PY-4460

Description

ALUKIDIR PY-4460 is a solventborne OH functional epoxy ester resin to use in combination with amino resins for stoving enamels. ALUKIDIR PY-4460 has high gloss, flexibility and good adhesion properties. It is recommended for can coatings.

Applications

Can coatings.

Key features

Adhesion.
High gloss.
Flexibility.

Characteristics

	ALUKIDIR PY-4460
Appearance	Clear liquid
Solids content, weight %	59.0 - 61.0
Viscosity, Gardner 25°C	U - W
Color, Gardner	3 max.
Acid value on solution, mgKOH/g	3 max.
Type of oil	Soybean oil fatty acids
Oil length, %	34
Solvent	Solvesso-100 / n-Butanol

Storage

Store in a cool, dry, well-ventilated place at temperatures below 25°C.

Safe handling note

Refer to SDS for ALUKIDIR PY-4460.
