

**Waterborne**

**Product name**  
**BURNOCK DNW-5500-ZS**

**Description**

BURNOCK DNW-5500-ZS is a water dispersible polyisocyanate hardener. BURNOCK DNW-5502 has excellent dispersibility and stability in water. It is recommended as a hardener for 2K polyurethane coatings.

**Applications**

Hardener for 2K waterbase polyurethane coatings.

**Key features**

- Dispersibility in water.
- Stability of isocyanate groups in water.
- Compatible with waterborne resins.
- Long pot life.
- Low odour.

**Characteristics**

	<b>BURNOCK DNW-5500-ZS</b>
<b>Appearance</b>	Clear liquid
<b>Solids content, weight %</b>	79.0 - 81.0
<b>Viscosity, Gardner 25°C</b>	G - M
<b>Color, Gardner</b>	1 max.
<b>NCO content, %</b>	13.0 - 14.0
<b>Solvent</b>	Methoxypropyl acetate

**Storage**

Store in a cool, dry, well-ventilated place at temperatures below 25°C.

**Safe handling note**

Refer to SDS for BURNOCK DNW-5500-ZS.
