

Waterborne

Product name

EPICLON EM-102-60W

Description

EPICLON EM-102-60W is a waterborne epoxy emulsion resin. EPICLON EM-102-60W has corrosion resistance, pigment dispersibility and VOC free. It is specifically recommended as a 2K anti-corrosion coatings with using polyamine hardener.

Applications

Anti-corrosion coatings on metals.
Industrial coatings.
High speed rail coating.

Key features

Corrosion resistance.
Pigment dispersibility.
VOC free.

Characteristics

	EPICLON EM-102-60W
Appearance	Milky liquid
Solids content, weight %	59.0 - 61.0
Viscosity, mPa s 25°C	50 – 2000
Epoxy equivalent weight, g/eq	480 – 530
Solvent	Water

Storage

Store in a cool, dry, and well-ventilated place as mentioned in SDS.

Safe handling note

Refer to SDS for EPICLON EM-102-60W.
Please confirm with our sales representative regarding chemical regulatory status of intended countries.
