

Solventborne

Product name
EPICLON H-304-40

Description

EPICLON H-304-40 is a solventborne 1K epoxy resin for metal coatings. EPICLON H-304-40 has excellent adhesion to metals and anti-corrosion properties. It is recommended for protective coatings.

Applications

Protective coatings.

Key features

Adhesion to metals.
Anti-corrosion.

Characteristics

	EPICLON H-304-40
Appearance	Clear liquid
Solids content, weight %	38.0 - 42.0
Viscosity, Gardner 25°C	Z2 - Z5
Solvent	Toluene / Propylene glycol monomethyl ether acetate / n-Butanol / Xylene

Storage

Store in a cool, dry, and well-ventilated place at temperatures below 25°C.

Safe handling note

Refer to SDS for EPICLON H-304-40.
Please confirm with our sales representative regarding chemical regulatory status of intended countries.
