

Solventborne

Product name
EPICLON H-403-45BM

Description

EPICLON H-403-45BM is a solventborne 1K modified epoxy resin for metal coatings. EPICLON H-403-45BM has excellent anti-corrosion properties. It is recommended for protective coatings.

Applications

Metal coatings.

Key features

Adhesion to metals.
Anti-corrosion.

Characteristics

EPICLON H-403-45BM	
Appearance	Clear liquid
Solids content, weight %	43.5 - 46.5
Viscosity, Gardner 25°C	Z4 – Z9
Color, Gardner	3 max.
Solvent	Toluene / Methyl ethyl ketone / Isopropyl alcohol / n-Butanol / Propylene glycol monomethyl ether acetate

Storage

Store in a cool, dry, and well-ventilated place at temperatures below 25°C.

Safe handling note

Refer to SDS for EPICLON H-403-45BM.
Please confirm with our sales representative regarding chemical regulatory status of intended countries.
