

Solventborne

Product name
Idecryl-3974

Description

Idecryl-3974 is a solventborne carboxyl functional acrylic resin. Idecryl-3974 has high gloss and hardness. It is recommended for can coatings.

Applications

Can coatings.
Air-dry water-based coatings.

Key features

High gloss.
Hardness.
Can be cured at elevated temperatures using epoxy resins (2K) or methylated melamine resins (1K).

Characteristics

	Idecryl-3974
Appearance	Clear liquid
Solids content, weight %	38.0 - 42.0
Viscosity, Gardner 25°C	W - Y
Color, Gardner	1 max.
Acid value on solids, mgKOH/g	80 - 90
Solvent	Butyl cellosolve

Storage

Store in a cool, dry, and well-ventilated place as mentioned in SDS.

Safe handling note

Refer to SDS for Idecryl-3974.
Please confirm with our sales representative regarding chemical regulatory status of intended countries.
