

TECHNICAL INFORMATION

Electrically conductive copper foil adhesive tape

E65CU

Construction

Characteristic

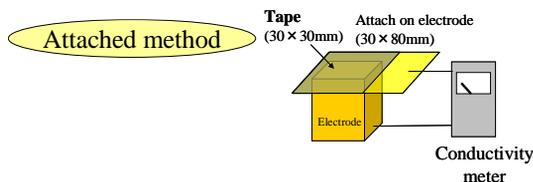

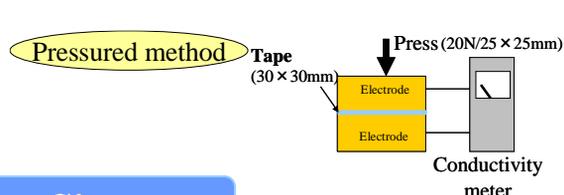

- Tape thickness is 65µm.
- Excellent electrical conductivity in thickness direction.
- Excellent adhesive strength .

Application

- For EMI shielding of electronic equipment.

Property

	Units	E65CU
Tape thickness	µm	65
Adhesion (SUS)	N/25mm	12.8
Electrical Conductivity :Pressure Method	$\Omega/6.25\text{cm}^2$	0.01
Electrical Conductivity :Attached Method	$\Omega/6.25\text{cm}^2$	0.03
Holding power :70°C 0.5kg	h	24<

Size

1000mm in max width / 50m in length
